What’s New for FY 2013?

• In July 2012, the System for Award Management (SAM), a new system that combines eight federal procurement systems, including the CCR, and the Catalog of Federal Domestic Assistance into one new system, was implemented. Therefore, the CCR activities are now being conducted through SAM. See Part VI B. for additional information.

• New Application Attachment Filename Requirement. Attachment Filename Characters are now validated and enforced. Beginning August 15, 2012, applicants are now limited to using the following characters in all attachment file names. Valid file names may only include the following UTF-8 characters: A-Z, a-z, 0-9, underscore (_), hyphen (-), space, period.

  Note: If applicants use any other characters when naming their attachment files their applications will be rejected.

• The FY 2013 formula grant awards will be disbursed through the Automated Standard Application for Payment System (ASAP) operated by the Department of Treasury’s Financial Management Service. Applicants must ensure ASAP recipient ID information provided on the SF 424 R&R (Research and Related) is correct as NIFA will use this information to certify funds in ASAP. NIFA will no longer move ASAP funds between institutional accounts. Applicants can receive instructions on how to access ASAP and how to inform NIFA, Financial Operations Division (FOD) of their account number to use to make disbursement, by emailing the ASAP Customer Service email box at ASAPCustomerService@nifa.usda.gov.

• There will be a single (final) Grants.gov submission in FY 2013. The funding amount provided in this FGO is an amount determined by NIFA and is subject to change upon final Appropriation.

• The Application Package for this submission will include:
  o Application for Federal Assistance, Standard Form (SF) 424 Research and Related (R&R) (Required)
  o NIFA Supplemental Information Form (Required)
    NIFA will use the Supplemental Information Form to capture all necessary attachments for this submission of the SF 424 R&R application (i.e., matching waiver requests (via pdf attachment)).
  o NIFA will be capturing the information for three key contacts, and each organization will determine who those individuals are.
    ▪ Block 5 should reflect the person responsible for fiscal/financial issues.
• The Authorized Representative (AR)\(^1\) must have the authority to represent and bind the organization for any agreement.

• The name of the Project Director will be reflected on the NIFA-2009, “Award Face Sheet”, and NIFA suggests that the 1890 Research Director would be an appropriate person.

• NIFA plans to issue all FY 2013 Formula Grants on the NIFA-2009 form. This form is also used to issue non-formula grants.

• For formula grants issued in FY 2013, the grantee is required to submit an annual SF-425, Federal Financial Report (this form consolidates and replaces four financial reporting forms; the SF-269, SF-269A, SF-272, and SF-272A). The grantee is NOT required to submit a quarterly SF-425 (the quarterly submission requirement, however, exists for previously issued grants with DHHS as the designated payment system). When completing the SF-425, the Project/Grant period in Block 8 must reflect the duration of the award (i.e. 2 years).

---

\(^1\) Authorized Representative (AR) – the individual who is authorized to commit the awardee’s time and other resources to the project, to commit the awardee to comply with the terms and conditions of the award instrument including those set out herein, and to otherwise act for or on behalf of the awardee institution or organization.

PART I—FUNDING OPPORTUNITY DESCRIPTION

A. Legislative Authority and Background

Section 1445 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, enacted as Title XIV of Public Law 95–113 (The Food and Agriculture Act of 1977) on Sept. 29, 1977 is also known as the Evans-Allen Research Program. This law provides the basis for Federal funding for agricultural research activities at 1890 Land-Grant Institutions, including Tuskegee University and West Virginia State University.

The 1890 Land-Grant Institutions, including Tuskegee University and West Virginia State University, are eligible for funds appropriated under this Act according to the following formula: Funds up to the total amount made available to all eligible institutions in the fiscal year ending September 30, 1978, under section 2 of the Act of August 4, 1965 (79 Stat.431; 7 U.S.C. 450i), shall be allocated among the eligible institutions in the same proportion as funds made available under section 2 of the Act of August 4, 1965, for the fiscal year ending September 30, 1978, are allocated among the eligible institutions. Of the funds in excess of that amount, 20 per cent shall be allotted among eligible institutions in equal proportions; 40 per cent shall be allotted among the eligible institutions in the proportion that the rural population of the State in which each eligible institution is located bears to the total rural population of all the States in which eligible institution are located, as determined by the last preceding decennial census current at the time each such additional sum is first appropriated; and the balance of 40 per cent shall be allotted among the eligible institutions in the proportion that the farm population of the State in which each eligible institution is located bears to the total farm population of all the States in which the eligible institutions are located, as determined by the last preceding decennial census current at the time each such additional sum is first appropriated. In computing the distribution of the allocated funds, the allotments to Tuskegee University and Alabama A&M University shall be determined as if each institution were in a separate State.

Under the Federal Funding Accountability and Transparency Act (FFATA), the U.S. Office of Management and Budget (OMB) was required to develop and maintain a public searchable database for all Federal financial assistance awards, and Federal agencies are required to report specific data elements which will be collected via these applications (e.g., Dun and Bradstreet data Universal Numbering (D-U-N-S®) numbers, legal name of institution, legal address, congressional district). OMB makes this information available at http://www.usaspending.gov.

Please note that the submission of this application package does not change the following:
- Delegated authorities of the 1890 Research Director
- Availability and use of Section 1445 funds at your institution
- Indirect costs and tuition remission are unallowable costs; and
- Matching waiver authority of NIFA for NARETPA section 1445 funds
Guidelines for the administration of this program are published as the Administrative Manual for Evans-Allen Cooperative Agricultural Research, which may be accessed at www.nifa.usda.gov/business/awards/formula/manuals/evansallen.pdf. Please note that any instructions in this FGO supersede policies and procedures identified in this manual. NIFA intends to revise this manual in FY 2013 and then promulgate administrative provisions for this program through the formal rulemaking process which includes a public comment period.

B. Purpose and Priorities

The purpose of this funding is to support agricultural research activities at 1890 Land-Grant Universities, including Tuskegee University and West Virginia State University.
PART II—AWARD INFORMATION

A. Available Funding

The Consolidated and Further Continuing Appropriations Act, 2013 (Public Law 113-6) provides funding in the amount of $46,979,763 in FY 2013 for this program. The FY 2013 allocation is subject to change upon final Appropriation.

NIFA will fund the Evans-Allen Research Program in FY 2013 for authorized activities. Funds may only be used on approved Evans-Allen Research Program projects.

Funds will be distributed to the institutions on a semi-annual basis in FY 2013. Applicants should request funding for the amounts listed in Appendix A to this announcement.

Evans-Allen Research Program funds are expected to be fully expended in the fiscal year of appropriation; however, funds may be carried over for up to one additional year. Please note there is no limitation on the amount of Federal funds that may be carried over for this one additional fiscal year. No prior approval from NIFA is required. Since this limitation is legislatively mandated, NIFA is not authorized to grant any carryover requests beyond this one additional year.

B. Types of Submission

In FY 2013, applications for awards must be submitted to the Evans-Allen Research Program as a “new” application on the www.grants.gov website. As noted previously, these application packages complement, rather than duplicate, the information collected via the Plan of Work (POW) and Current Research Information System (CRIS) systems, and together satisfy all legislative and regulatory pre-award requirements.

Section 225 of the Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) amended NARETPA to require an approved Plan of Work for agricultural extension and research activities at 1890 Land-Grant Institutions in order to receive Federal funding. Therefore, each 1890 Land-Grant Institution, including Tuskegee University and West Virginia State University, must submit both a 5-Year Plan of Work Update for FY 2014-2018 and an Annual Report of Accomplishments and Results. Both reports were due April 1, 2013.

Specific project details and pertinent information should be entered in CRIS as in prior years. CRIS is the U.S. Department of Agriculture's documentation and reporting system for ongoing agricultural, food and nutrition, and forestry research and education. CRIS contains over 30,000 descriptions of current, publicly-supported research and education activities. This work is sponsored or conducted by the USDA research agencies, the State agricultural experiment stations, the State Land-Grant Institutions and universities, State schools of forestry, cooperating schools of veterinary medicine, and USDA grant recipients. See Part IV.C. for specific CRIS requirements.
C. Responsible and Ethical Conduct of Research

The responsible and ethical conduct of research (RCR) is critical for excellence, as well as public trust, in science and engineering. Consequently, education in RCR is considered essential in the preparation of future scientists. In accordance with sections 2, 3, and 8 of 7 CFR Part 3022, institutions that conduct extramural research funded by USDA must foster an atmosphere conducive to research integrity, bear primary responsibility for prevention and detection of research misconduct and are to maintain and effectively communicate and train their staff regarding policies and procedures. In the event an application to NIFA results in an award, the AOR assures, through acceptance of the award that the institution will comply with the above requirements. Per award terms and conditions, grant recipients shall, upon request, make available to NIFA the policies and procedures as well as documentation to support the conduct of the training.

Note that the training referred to herein shall be either on-campus or off-campus training. The general content of the ethics training, at a minimum, will emphasize three key areas of research ethics: authorship and plagiarism, data and research integration and reporting misconduct. Each institution will be responsible for developing its own training system, as schools will need flexibility to develop training tailored to their specific student needs. Grantees should consider the Collaborative Institutional Training Initiative (CITI) program for RCR (www.citiprogram.org/rcrpage.asp). Typically this RCR education addresses the topics of: Data Acquisition and Management - collection, accuracy, security, access; Authorship and Publication; Peer Review; Mentor/Trainee Responsibilities; Collaboration; Conflict of Interest; Research Misconduct; Human Subject Research; and Use of Animals in Research.
PART III—ELIGIBILITY INFORMATION

A. Eligible Applicants

Applications may be submitted by 1890 Land-Grant Universities, including Tuskegee University and West Virginia State University, that conduct agricultural research activities in accordance with NARETPA section 1445: Alabama A&M University; Tuskegee University; University of Arkansas - Pine Bluff; Delaware State University; Florida A&M University; Fort Valley State University; Kentucky State University; Southern University; University of Maryland – Eastern Shore; Alcorn State University; Lincoln University; North Carolina A & T State University; Langston University; South Carolina State University; Tennessee State University; Prairie View A&M University; Virginia State University; and West Virginia State University.

Institutions may subcontract to organizations not eligible to apply for funding provided that such arrangements are necessary to complete the project or activity.

B. Cost Sharing or Matching

NARETPA section1449 (7 U.S.C. 3222d) states that “the State shall provide matching funds from non-Federal sources. Such matching funds shall be for an amount equal to not less than ... 100 percent of the formula [grant] funds to be distributed to the eligible institution for fiscal year 2007 and each fiscal year thereafter. ... Notwithstanding [redistributing the funds], the Secretary may waive the matching funds requirement ... above the 50 percent level for any fiscal year for an eligible institution of a State if the Secretary determines that the State will be unlikely to satisfy the matching requirement.”

7 CFR 3419.1 defines “matching funds” as “funds from non-Federal sources made available by the State to the eligible institutions ... [for] programs or activities that fall within the purposes of agricultural research and cooperative extension under sections 1444 and 1445 of NARETPA ... or [for] qualifying educational activities. Matching funds means cash contributions and excludes in-kind matching contributions.” It defines “non-Federal sources” as “funds made available by the State to the eligible institution either through direct appropriation or under any authority (other than authority to charge tuition and fees paid by students) provided by a State to an eligible institution to raise revenue, such as gift acceptance authority or user fees.” Finally, it defines “qualifying educational activities” as “programs that address food and agricultural sciences components of an eligible institution.”

7 CFR 3419.6 states that “The required matching funds for the formula programs shall be used by an eligible institution for agricultural research and extension activities that have been approved in the plan of work required under sections 1444(d) and 1445(c) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977... or for .. qualifying education activities.”
PART IV—SUBMISSION INFORMATION

A. Electronic Formula Grants Opportunity Package

Only electronic applications may be submitted to NIFA via Grants.gov in response to this FGO.

Prior to preparing an application, NIFA suggests that the 1890 Research Director, or his or her designee, first contact an AR to determine if the organization is prepared to submit electronic applications through Grants.gov. If the organization is not prepared, the AR should see http://www.grants.gov/applicants/get_registered.jsp for steps for preparing to submit applications through Grants.gov.

The 1890 Research Director, or his or her designee, also must contact the institution’s AR in order to be granted permission for the submission of applications through Grants.gov. Once that permission is granted in the Grants.gov system, the 1890 Research Director, or his or her designee, can obtain a login and password necessary for submission of applications.

The steps to access application materials are as follows:

1. In order to access, complete and submit applications, applicants must download and install a version of Adobe Reader compatible with Grants.gov. This software is essential to apply for NIFA Federal assistance awards. For basic system requirements and download instructions, please see http://www.grants.gov/help/download_software.jsp. To verify that you have a compatible version of Adobe Reader, Grants.gov established a test package that will assist you in making that determination. Grants.gov Adobe Versioning Test Package: http://www.grants.gov/applicants/AdobeVersioningTestOnly.jsp.

2. The application package must be obtained via Grants.gov, go to http://www.grants.gov, click on “Apply for Grants” in the left-hand column, click on “Step 1: Download a Grant Application Package and Instructions,” enter the funding opportunity number USDA-NIFA-EA1445-004252 in the appropriate box and click “Download Package.” From the search results, click “Download” to access the application package.

If assistance is needed to access the application page (e.g., downloading or navigating PDF forms, using Adobe with a Macintosh computer), refer to the resources available on the Grants.gov Web site first (http://grants.gov). Grants.gov assistance is also available as follows:

Only the AR has the authority and user rights to Sign and Submit an application to Grants.gov. Additional submission tips may be found at the Grants.gov website.

C. Certifications

In addition, by signing the application the applicant is providing the required assurances noted below:

Each entity that applies and does not have an exemption under Sec. 25.110 of 2 CFR will:
(1) Be registered in the Central Contract Registry (CCR) prior to submitting an application or plan; (2) Maintain an active CCR registration with current information at all times during which it has an active Federal award or an application or plan under consideration by an agency; and (3) Provide its DUNS number in each application or plan it submits to the agency.

The Grants.gov validation process checks for an active CCR registration (applicants with expired CCR registrations will be rejected).

In July 2012, the System for Award Management (SAM), a new system that combines eight federal procurement systems, including the CCR, and the Catalog of Federal Domestic Assistance into one new system, was implemented. Therefore, the CCR activities are now being conducted through SAM. See Part VI B. for additional information.

Each entity that applies and does not have an exception under Sec. 170.110(b) of 2 CFR ensures that they have the necessary processes and systems in place to comply with the reporting requirements identified in Appendix A to Part 170 should they receive funding.

D. Submission Dates and Times

The application package containing an “Application for Federal Assistance,” Form SF 424 (R&R) and NIFA Supplemental Information Form is to be submitted online at the www.grants.gov website by COB (5:00 p.m. Eastern Time) on June 7, 2013.

The receipt of all applications will be acknowledged by e-mail. Therefore, applicants are strongly encouraged to provide accurate e-mail addresses via the www.grants.gov website. **If an applicant has not received an acknowledgment within 30 days of the submission, the applicant must contact the Agency contact (see Part VII) immediately and ask for the application number assigned to the application. Failure to do so may result in the application not being processed and funding being held.** Once the application has been assigned an application number, this number should be cited on all future correspondence.

E. Funding Restrictions

(1) Approved NIFA Evans-Allen Research Projects

NIFA will fund the Evans-Allen Research Program in FY 2013 for authorized activities. Funds may only be used on approved Evans-Allen Research Program projects.
(2) Matching

NARETPA section 1449 (7 U.S.C. 3222d) states that “the State shall provide matching funds from non-Federal sources. Such matching funds shall be for an amount equal to not less than ... 100 percent of the formula [grant] funds to be distributed to the eligible institution for fiscal year 2007 and each fiscal year thereafter. ... Notwithstanding [redistributing the funds], the Secretary may waive the matching funds requirement ... above the 50 percent level for any fiscal year for an eligible institution of a State if the Secretary determines that the State will be unlikely to satisfy the matching requirement.”

7 CFR 3419.1 defines “matching funds” as “funds from non-Federal sources made available by the State to the eligible institutions ... [for] programs or activities that fall within the purposes of agricultural research and cooperative extension under sections 1444 and 1445 of NARETPA ... or [for] qualifying educational activities. Matching funds means cash contributions and excludes in-kind matching contributions.” It defines “non-Federal sources” as “funds made available by the State to the eligible institution either through direct appropriation or under any authority (other than authority to charge tuition and fees paid by students) provided by a State to an eligible institution to raise revenue, such as gift acceptance authority or user fees.” Finally, it defines “qualifying educational activities” as “programs that address food and agricultural sciences components of an eligible institution.”

7 CFR 3419.6 states that “The required matching funds for the formula programs shall be used by an eligible institution for agricultural research and extension activities that have been approved in the plan of work required under sections 1444(d) and 1445(c) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977... or for .. qualifying education activities.”

Please note that while Federal funds must be expended on agricultural research, the matching funds may be used for agricultural research, agricultural extension, or qualifying educational activities. NIFA may consider and approve matching waivers above the 50 percent level. See Part IV.B.3. for additional information.

(3) Indirect Costs and Tuition Remission

In accordance with NARETPA section 1473 (7 U.S.C. 3319), indirect costs and tuition remission are unallowable as Evans-Allen Research Program formula grant expenditures.

F. Other Submission Requirements

(1) CRIS Requirements
