

Minor Crop Pest Management Program Interregional Research Project #4

FY 2014 Request for Applications

APPLICATION DEADLINE: April 14, 2014

 **U.S. Department of Agriculture**
National Institute of Food and Agriculture

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE; U.S. DEPARTMENT OF AGRICULTURE

MINOR CROP PEST MANAGEMENT PROGRAM – INTERREGIONAL RESEARCH PROJECT #4

INITIAL ANNOUNCEMENT

CATALOG OF FEDERAL DOMESTIC ASSISTANCE: This program is listed in the Catalog of Federal Domestic Assistance under **10.200**.

DATES: Applications must be received by **5:00 p.m. Eastern Time on April 14, 2014**. Applications received after this deadline will normally not be considered for funding (see Part IV, C. of this RFA). Comments regarding this request for applications (RFA) are requested within 6 months from the issuance of this notice. Comments received after that date will be considered to the extent practicable.

STAKEHOLDER INPUT: The National Institute of Food and Agriculture (NIFA) seeks your comments about this RFA. We will consider the comments when we develop the next RFA for the program, if applicable, and we'll use them to meet the requirements of section 103(c)(2) of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7613(c)(2)). Submit written stakeholder comments by the deadline set forth in the DATES portion of this Notice to: Policy and Oversight Division; Office of Grants and Financial Management; National Institute of Food and Agriculture; USDA; STOP 2299; 1400 Independence Avenue, SW; Washington, DC 20250-2299; or via e-mail to: Policy@nifa.usda.gov. (This e-mail address is intended only for receiving comments regarding this RFA and not requesting information or forms.) In your comments, please state that you are responding to the Minor Crop Pest Management Program – Interregional Research Project #4 (IR-4) RFA.

EXECUTIVE SUMMARY: NIFA requests applications for the Minor Crop Pest Management Program – Interregional Research Project #4 (IR-4) for fiscal year (FY) 2014 to provide safe, effective, and economical pest management solutions for growers of minor/specialty crops (see Part VIII, E. for definitions). NIFA anticipates funding five projects: one to establish a national headquarters and four to establish geographically-based regional IR-4 centers; three of the centers will include analytical chemistry programs. The four USDA administrative regions (North Central, Northeastern, Southern, and Western) are described by state and territory at the end of Part I, B.

Pursuant to H.R. 3547 (Pub.L. 113-76), the Consolidated Appropriations Act, 2014, the amount available to support this program in FY 2014 is approximately \$ 11 million.

This notice identifies the objectives for IR-4 projects, the eligibility criteria for projects and applicants, and the application forms and associated instructions needed to apply for an IR-4 grant.

PART I—FUNDING OPPORTUNITY DESCRIPTION

A. Legislative Authority and Background

The Minor Crop Pest Management Program - Interregional Research Project #4 (IR-4) is authorized under subsection (c) (1) (B) of section 2 of the Competitive, Special, and Facilities Research Grant Act (7 U.S.C. 450i).

The IR-4 program provides expert assistance for the development and registration of crop protection products needed for minor/specialty crop production. For the past 50 years, the program has facilitated cooperation between producers, grower organizations, state Cooperative Extension Services, land-grant universities, and federal agencies to ensure a continuous supply of affordable minor/specialty crops to the public.

B. Purpose and Priorities

The purpose of the IR-4 program is to enable the crop protection industry to provide safe, effective, and economical crop protection products for growers and consumers of minor/specialty crops. The crop protection industry cannot justify the costs associated with the research and development, registration, production, and marketing of crop protection products for minor/specialty crops due to the smaller market base and limited sales potential. The IR-4 program provides the assistance needed to ensure that new and more effective crop protection products are developed and made available to minor/specialty crop producers. These efforts require effective collaborations among federal agencies, the crop protection industry, and land-grant colleges and universities.

Successful applicants to this program will demonstrate the capacity and commitment required to achieve the following goals, which are regionally oriented:

1. Expedite the registration of newer, reduced-risk crop protection products for minor and specialty crop growers.
2. Conduct efficacy research to identify new more effective minor/specialty crop protection products.

The IR-4 program will provide support for efforts to develop reduced-risk products, bio-pesticides, and other chemicals with characteristics that are deemed lower risk to humans, non-target organisms, and the environment. In addition, the program will concentrate on internal processes that reduce the time needed to complete successful regulatory packages.

Successful applicants to this program will also demonstrate a commitment to addressing the societal challenge of keeping American agriculture competitive and reducing world hunger by improving the availability and accessibility of safe and nutritious food. NIFA is committed to supporting new science to boost U.S. agricultural production, improve global capacity to meet the growing food demand, and foster innovation in fighting hunger by

addressing food security for vulnerable populations. The IR-4 program directly aligns with the Research, Education, and Economics Action Plan (www.ree.usda.gov/ree/news/USDA_REE_Action_Plan_02-2012_2.pdf) and specifically addresses:

- Goal 1 – Local and Global Food Supply and Security, Subgoals 1A, 1B, and 1C (focus is on Consumer and Industry Outreach, Policy, Markets, and Trade; Crop Production; and Crop Health);
- Goal 3 – Sustainable Use of Natural Resources, Subgoals 1A, 1B, and 1C (focus is on Consumer and Industry Outreach, Policy, Markets, and Trade; Crop Production; and Crop Health);
- Goal 5 – Food Safety;
- Goal 6 – Education and Science Literacy; and
- Goal 7 – Rural Prosperity/Rural-Urban Interdependence.

List of States and Territories by Region:

North Central: Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin.

Northeastern: Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and West Virginia.

Southern: Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Oklahoma, Puerto Rico, South Carolina, Tennessee, Texas, Virginia, and the U.S. Virgin Islands.

Western: Alaska, American Samoa, Arizona, California, Colorado, Federated States of Micronesia, Guam, Hawaii, Idaho, Montana, Nevada, New Mexico, Northern Marianas, Oregon, Utah, Washington, and Wyoming.

C. Program Area Description

In FY 2014, NIFA will provide funding for an IR-4 project headquarters and four geographically-based Regional IR-4 Centers. The four regional centers correspond to the agency's four administrative regions: North Central, Northeastern, Southern, and Western (List of States and Territories by region is provided at the end of Part I, B).

Proposals submitted to the IR-4 program should clearly describe a plan for achieving the following three core objectives:

1. Obtain and maintain regulatory clearances of effective crop protection agents for high-value, minor/specialty food crops and for minor uses (special circumstance needs) on

major food crops with an emphasis on lower risk chemicals and uses that are compatible with integrated pest management (IPM) programs.

2. Support research to enhance the development and registration of bio-pesticides for use in food and non-food pest management programs.
3. Support research on crop protection products that will expand their uses on ornamental crops (nursery, floral, turf, and other non-food crop systems) to allow management of invasive/exotic pests.

The five IR-4 projects funded in FY 2014 will be expected to build on the successes and capacity developed by prior projects. Applicants are encouraged to review progress reports and the current strategic plan developed for the IR-4 program (available at www.ir4.rutgers.edu).

The IR-4 program will fund two types of projects: IR-4 project headquarters and regional IR-4 centers. The key responsibilities of these two project types are described below.

Project Headquarters Responsibilities:

- Coordinate IR-4 activities nationally and internationally with other agencies and organizations including, but not limited to, the Environmental Protection Agency (EPA), USDA's Agricultural Research Service (ARS), Canada's Pest Management Centre of Agriculture, Agri-Food Canada, and the crop protection industry.
- Interact with the crop protection industry in selecting high priority chemistries that the industry will ultimately support through the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) regulatory process.
- Convene state and federal scientists, commodity group representatives, growers, and other experts to evaluate specific crop uses of crop protection products for potential inclusion in the IR-program and give them a priority based on:
 - the availability and efficacy of alternative crop protection products;
 - the potential damage from the target pest;
 - the performance of the proposed product in managing the target pest;
 - the compatibility of the proposed product with IPM programs; and
 - the level of risk use of the product poses to humans, non-target organisms, and the environment.
- Identify headquarters staff with experience in managing pesticide registration protocol and preparing and submitting petitions.
- Conduct training on IR-4 procedures and practices for regional scientific field and laboratory research staff.

Regional Center Responsibilities:

- Participate in national coordination meetings with IR-4 headquarters staff to harmonize and prioritize regional needs and activities into a comprehensive nationally-coordinated program. Program priorities will be established with stakeholder input provided at national meetings attended by program stakeholders, including producers, land-grant institution representatives, and other individuals and organizations interested in the production of minor and specialty crops.
- Establish a process for research coordinators to verify each request for assistance and add that information to a master list.
- Identify field, laboratory, and quality assurance representatives experienced in generating data according to Good Laboratory Practices (GLPs) for pesticide registration.
- Plan and conduct field trials at EPA-approved locations.
- Analyze the residue samples from field trials as well as residue samples from USDA/ARS Specialty Crops Programs per EPA guidelines, and GLPs. This responsibility only applies to the three regional IR-4 centers with analytical chemistry programs.

Shared Responsibilities of Headquarters and Regional Centers:

- Identify pest management needs from requests submitted through a nationwide network of liaison representatives.
- Maintain working liaison with the counterpart national or regional Integrated Pest Management Centers to facilitate joint progress on priority programs.
- Integrate multiple pest disciplines in the management and execution of IR-4 programs.
- Identify a network of qualified field research scientists who can conduct the necessary research trials and develop the data under EPA-mandated Good Laboratory Practices (GLP) guidelines following specific directions in the research protocol.
- Outline plans and identify key personnel for a quality assurance unit for GLP compliance and to format all research data and reports for submission to the EPA.
- Identify expert assistance for the development and registration of biological agents for use in pest management strategies on minor and specialty crops.

NIFA will give priority consideration to IR-4 proposals that:

1. Use novel approaches to address high priority pest management problems that relate to the societal challenge of global food security and to foster new collaborations between individuals, programs and institutions;
2. Address the needs of under-served or hard-to-reach audiences by conducting workshops that address the needs of specialty crop growers;
3. Include collaboration with small- or mid-sized accredited colleges and universities, 1890 land-grant institutions, 1994 land-grant institutions, Hispanic-serving institutions, Hispanic-serving Agricultural Colleges and universities, and/or other institutions that serve high-risk, underserved, or hard-to-reach audiences, or international partnerships that contribute to or support U.S. pest management issues;
4. Successfully integrate multiple pest management disciplines in the management and execution of IR-4 programs; and
5. Include specific plans for building collaborative partnerships with the Regional Integrated Pest Management Centers on programmatic areas of mutual interest.

The IR-4 program encourages projects that develop content and programs suitable for delivery through the Cooperative Extension System's eXtension Initiative. You may use funds to contribute to existing Communities of Practice (CoP) or to form a new CoP focused on providing safe, effective, and economical pest management solutions for growers of specialty crops. Projects must align with the eXtension vision, mission, and values. You must have a letter of acknowledgement from eXtension; you may also need a letter of support from one or more of the Communities of Practice. For detailed guidance on how to partner with eXtension, go to <http://create.extension.org/node/2057>.

PART II—AWARD INFORMATION

A. Available Funding

Pursuant to H.R. 3547 (Pub.L. 113-76), the Consolidated Appropriations Act, 2014, the amount available to support this program in FY 2014 is approximately \$ 11 million.

The IR-4 program anticipates awarding one IR-4 headquarters grant and four regional IR-4 center grants, one in each USDA administrative region: North Central, Northeastern, Southern, and Western (List of States and Territories by region is provided at the end of Part I, B).

There is no commitment by USDA to fund any particular application.

Awards issued as a result of this RFA will have designated the Automated Standard Applications for Payment System (ASAP), operated by the Department of Treasury's Financial Management Service, as the payment system for funds. For more information see www.nifa.usda.gov/business/method_of_payment.html.

B. Types of Applications

In FY 2014, you may submit applications to the IR-4 Program as one of the following two types of requests:

(1) **New application**. This is a project application that has not been previously submitted to the IR-4 Program. We will review all new applications competitively using the selection process and evaluation criteria described in Part V—Application Review Requirements.

(2) **Renewal application**. This is a project application that requests additional funding for a project beyond the period that was approved in an original or amended award. Applications for renewed funding must contain the same information as required for new applications; they also must contain a Progress Report (see Project Narrative, Part IV). Renewal applications must be received by the relevant due dates, will be evaluated in competition with other pending applications in the area to which they are assigned, and will be reviewed according to the same evaluation criteria as new applications.

C. Project Types

The IR-4 program will provide funding for three types of projects. The project types and funding levels are as follows:

1. Regional IR-4 center with analytical chemistry program (**up to \$3.6 million each**);
2. Regional IR-4 center without an analytical chemistry program (**up to \$1 million**);
3. IR-4 project headquarters (**up to \$4.8 million**).

Project proposals should be submitted for a 12-month project period.

D. Responsible and Ethical Conduct of Research

The responsible and ethical conduct of research (RCR) is critical for excellence, as well as public trust, in science and engineering. Consequently, we consider education in RCR essential to the preparation of future scientists. In accordance with sections 2, 3, and 8 of 7 CFR Part 3022, institutions that conduct USDA-funded extramural research must foster an atmosphere conducive to research integrity, bear primary responsibility for prevention and detection of research misconduct, and maintain and effectively communicate and train their staff regarding policies and procedures. In the event an application to NIFA results in an award, the Authorized Representative (AR) assures, through acceptance of the award that the institution will comply with the above requirements. Per award terms and conditions, grant recipients shall, upon request, make available to NIFA the policies, procedures, and to support the conduct of the training.

Note that the training referred to herein shall be either on-campus or off-campus training. The general content of the ethics training will, at a minimum, emphasize three key areas of research ethics: authorship and plagiarism, data and research integration, and reporting misconduct. Each institution will be responsible for developing its own training system, as schools will need flexibility to develop training tailored to their specific student needs. Grantees should consider the Collaborative Institutional Training Initiative (CITI) program for RCR (<https://www.citiprogram.org/rcrpage.asp>). Typically this RCR education addresses the topics of: Data Acquisition and Management - collection, accuracy, security, access; Authorship and Publication; Peer Review; Mentor/Trainee Responsibilities; Collaboration; Conflict of Interest; Research Misconduct; Human Subject Research; and Use of Animals in Research.

E. Scientific Peer Review

Subsection (c)(5) of the Competitive, Special, and Facilities Research Grant Act, as amended (7 U.S.C. 450i(c)(5)), requires applicants to conduct scientific peer review of their proposed research activities prior to the Secretary making a grant award under this authority. Regulations implementing this requirement are set forth in 7 CFR Part 3400.20. The regulations impose the following requirements:

(1) Scientific peer review. Prior to the award of a standard or continuation grant, any proposed research project shall have undergone a review arranged by the grantee. Such review must be a scientific peer review conducted in accordance with 7 CFR 3400.21. It must be credible, independent, and arranged by the grantee. It should provide an appraisal of technical quality and relevance sufficient for an organizational representative to make an informed judgment as to whether the proposal is appropriate for submission for federal support. Often this review is conducted by faculty peers. It may include USDA employees, but should not be conducted solely by USDA employees. Although evidence of a scientific peer review is not required until an award is ready to be finalized, peer reviews can improve the quality of a proposal. **For this reason, we encourage applicants to have proposals peer reviewed before submission.**

(2) Notice of completion and retention of records. A notice of completion of the review shall be conveyed in writing to NIFA. The written notice constitutes certification by the applicant that a review in compliance with these regulations has occurred. **Applicants are not required to submit results of the review to NIFA; however, proper documentation of the review process and results should be retained by the applicant.** The notice should state “In accordance with 7 CFR 3400.21, this memo is to certify that this project [title] has undergone a scientific peer review.” If the notice is submitted as part of the application it is to be included in Other Attachments (Field 12. Of the R&R Other Project Information Form). If, however, it is submitted to NIFA after the application is submitted through Grants.gov, the memo must be on the institution’s letterhead and signed by the Authorized Representative. This memo should be sent to the NIFA program contact.

PART III—ELIGIBILITY INFORMATION

A. Eligible Applicants

Applications may only be submitted by State agricultural experiment stations, land-grant colleges and universities, research foundations established by land-grant colleges and universities, colleges and universities receiving funds under the Act of October 10, 1962 (16 U.S.C. 582a et seq.), and accredited schools or colleges of veterinary medicine for the purpose of facilitating or expanding ongoing state-federal food and agricultural research programs. Award recipients may subcontract to organizations not eligible to apply provided such organizations are necessary for the conduct of the project. Failure to meet an eligibility criterion by the time of application deadline may result in the application being excluded from consideration or, even though an application may be reviewed, will preclude NIFA from making an award.

B. Cost Sharing or Matching

NIFA does not require matching support for this program and matching resources will not be factored into the review process as evaluation criteria.

PART IV—APPLICATION AND SUBMISSION INFORMATION

A. Electronic Application Package

Only electronic applications may be submitted via Grants.gov to NIFA in response to this RFA. We urge you to submit early to the Grants.gov system. For an overview of the Grants.gov application process see www.grants.gov/web/grants/applicants/grant-application-process.html.

New Users of Grants.gov

Prior to preparing an application, we recommend that the PD/PI first contact an Authorized Representative (AR, also referred to as Authorized Organizational Representative or AOR) to determine if the organization is prepared to submit electronic applications through Grants.gov. If not (e.g., the institution/organization is new to the electronic grant application process through Grants.gov), then the one-time registration process must be completed PRIOR to submitting an application. It can take as long as 2 weeks to complete the registration process so it is critical to begin as soon as possible. In such situations, the AR should go to **“Register” in the top right corner of the Grants.gov web page (or go to www.grants.gov/web/grants/register.html) for information on registering the institution/organization with Grants.gov.** Item 2. below mentions the “NIFA Grants.gov Application Guide.” Part II, Section 1. of the NIFA Grants.gov Application Guide contains additional explanatory language regarding the registration process.

Steps to Obtain Application Package Materials

To receive application materials:

1. You must download and install a version of Adobe Reader compatible with Grants.gov to access, complete, and submit applications. For basic system requirements and download instructions, see www.grants.gov/web/grants/support/technical-support/software/adobe-reader-compatibility.html. Grants.gov has a test package that will help you determine whether your current version of Adobe Reader is compatible.
2. To obtain the application package from Grants.gov, go to www.grants.gov/web/grants/applicants/apply-for-grants.html. Under Step 1 click on “Download a Grant Application Package” and enter the funding opportunity number **USDA-NIFA-SRGP-004488** in the appropriate box and click “Download Package.” From the search results, click “Download” to access the application package.

Contained within the application package is the “NIFA Grants.gov Application Guide.” This guide contains an introduction and general Grants.gov instructions, information about how to use a Grant Application Package in Grants.gov, and instructions on how to complete the application forms.

If you require assistance to access the application package (e.g., downloading or navigating Adobe forms) **or submitting the application**, refer to resources available on the Grants.gov website www.grants.gov/web/grants/applicants/applicant-resources.html). Grants.gov assistance is also available at:

Grants.gov customer support
800-518-4726 Toll-Free or 606-545-5035
Business Hours: 24 hours a day, 7 days a week. Closed on [federal holidays](#).
Email: support@grants.gov

Grants.gov iPortal: Top 10 requested help topics (FAQs), Searchable knowledge base, self-service ticketing and ticket status, and live web chat (available 7 a.m. - 9 p.m. ET). Get help now!

Have the following information available when contacting Grants.gov:

- Funding Opportunity Number (FON)
- Name of agency you are applying to
- Specific area of concern

See www.nifa.usda.gov/funding/electronic.html for additional resources for applying electronically.

B. Content and Form of Application Submission

You should prepare electronic applications following Parts V and VI of the NIFA Grants.gov Application Guide. This guide is part of the corresponding application package (see Section A. of this Part). The following is **additional information** needed to prepare an application in response to this RFA. **If there is discrepancy between the two documents, the information contained in this RFA is overriding.**

Note the attachment requirements (e.g., PDF) in Part III, Section 3. of the guide. ANY PROPOSALS THAT ARE NON-COMPLIANT WITH THE REQUIREMENTS (e.g., content format, PDF file format, file name restrictions, and no password protected files) WILL BE AT RISK OF BEING EXCLUDED FROM NIFA REVIEW. Partial applications will be excluded from NIFA review. We will accept subsequent submissions of an application until close of business on the closing date in the RFA (see Part V, Section 2.1 of the NIFA Grants.gov Application Guide for further information).

Grants.gov provides online tools to assist if you do not own PDF-generating software. You will find PDF conversion software at <http://test.grants.gov/web/grants/support/technical-support/software/pdf-conversion-software.html>.

For any questions related to the preparation of an application, review the NIFA Grants.gov Application Guide and the applicable RFA. If assistance is still needed for preparing application forms content, contact:

- Email: electronic@nifa.usda.gov
- Phone: 202-401-5048
- Business hours: Monday through Friday, 7 a.m. – 5 p.m. ET, excluding federal holidays.

1. SF 424 R&R Cover Sheet

Information related to the questions on this form is dealt with in detail in Part V, Section 2. of the NIFA Grants.gov Application Guide.

2. SF 424 R&R Project/Performance Site Location(s)

Information related to the questions on this form is dealt with in detail in Part V, Section 3. of the NIFA Grants.gov Application Guide.

3. R&R Other Project Information Form

Information related to the questions on this form is dealt with in detail in Part V, Section 4. of the NIFA Grants.gov Application Guide.

a. Field 7. Project Summary/Abstract. The summary must include:

- the project type (IR-4 Headquarters or Regional IR-4 Center);
- physical location(s) of proposed headquarters or center;
- categorized listing of partners and collaborators;
- a clear overview of the proposal;
- the anticipated impact of the proposed project on minor/specialty crop industry; and
- the relevance of the project to the goals of IR-4.

See Part V, Section 4.7 of the NIFA Grants.gov Application Guide for further instructions and a link to a suggested template.

b. Field 8. Project Narrative.

NOTE: The Project Narrative shall not exceed **18** pages of written text (including figures and tables), regardless of whether it is single- or double-spaced. We have established this maximum (**18** pages) to ensure fair and equitable competition. The Project Narrative must include all of the following:

- i. Identify the mission and goals of the proposed IR-4 headquarters or regional IR-4 center specifically designated in the application;
- ii. Identify the director and other key personnel (or positions) of the IR-4 headquarters or regional center specifically designated in the application;
- iii. Describe the management process the proposed IR-4 headquarters or regional center will use to: a) establish broad-based advisory committees; b) involve stakeholders and partner institutions in its operations through working groups and other mechanisms; c) identify program needs and priorities; and d) develop a strategic plan that will be followed to address national and regional priorities and achieve goals and objectives identified in this request for applications;
- iv. Demonstrate the ability to establish and maintain an interactive information network that will provide a mechanism to share current pest management information and

successes with pest managers, funding organizations, policy-makers, and other stakeholders;

- v. Describe the process that will be used to ensure effective management of IR-4 resources (including personnel, training and travel budgets, and supplies/equipment needed for field and laboratory research) and provide a plan to assess progress and accomplishments throughout the project;
- vi. Describe a process for managing sub-awards and/or fee for service arrangements made from NIFA funding provided through the IR-4 headquarters or IR-4 center award. The management process must ensure: a) the needs identification and prioritization process is kept separate from the funding process, b) that eligible applicants are notified of funding opportunities, and c) that funding is distributed in a fair and equitable fashion; and
- vii. Renewal applications (as described in Part II.B.) should include a clearly marked progress report describing results to date from the previous award. The section should contain the following information:
 - a) a comparison of actual accomplishments with the goals established for the previous award;
 - b) the reasons established goals were not met, if applicable; and
 - c) a listing of any publications resulting from the previous award. Copies of reprints or preprints may be included in the Appendices to the Project Narrative portion of the submission.

The Progress Report should be submitted as an Other Attachment in Field 12. of the R&R Other Project Information form. Progress reports will not be counted toward the Project Narrative page limit. See Part V, Section 4.12. of the NIFA Grants.gov Application Guide for further details.

4. R&R Senior/Key Person Profile (Expanded)

Information related to the questions on this form is dealt with in detail in Part V, Section 5. of the NIFA Grants.gov Application Guide. This section of the Guide includes information about the people who require a Senior/Key Person Profile, and details about the Biographical Sketch and the Current and Pending Support, including a link to a suggested template for the Current and Pending Support.

5. R&R Personal Data – As noted in Part V, Section 6. of the NIFA Grants.gov Application Guide, the submission of this information is voluntary and is not a precondition of award.

6. R&R Budget

Information related to the questions on this form is dealt with in detail in Part V, Section 7. of the NIFA Grants.gov Application Guide.

At least one member from the successful IR-4 headquarters and one member from each successful regional IR-4 center must attend leadership meetings as often as necessary to

report on IR-4 activities. Reasonable travel expenses may be claimed as part of the project budget.

7. Supplemental Information Form

Information related to the questions on this form is dealt with in detail in Part VI, Section 1. of the NIFA Grants.gov Application Guide.

- a. **Field 2. Program to which you are applying.** Enter the program code name “**Minor Crop Pest Management IR-4**” and the program code “**RR**”.
- b. **Field 8. Conflict of Interest List.** See Part VI, Section 1.8 of the NIFA Grants.gov Application Guide for further instructions and a link to a suggested template.

C. Submission Dates and Times

Instructions for submitting an application are included in Part IV, Section 1.9 of the NIFA Grants.gov Application Guide.

Applications must be received by Grants.gov by COB on **April 14, 2014 (5 p.m. Eastern Time)**. Applications received after this deadline will normally not be considered for funding.

If you have trouble submitting an application to Grants.gov, you should FIRST contact the Grants.gov Help Desk to resolve any problems. Keep a record of any such correspondence. See Part IV. A. for Grants.gov contact information.

We send email correspondence to the AR regarding the status of submitted applications. Therefore, applicants are strongly encouraged to provide accurate e-mail addresses, where designated, on the SF-424 R&R Application for Federal Assistance.

If the AR has not received correspondence **from NIFA** regarding a submitted application within 30 days of the established deadline, contact the Agency Contact identified in Part VII of the applicable RFA and request the proposal number assigned to the application. **Failure to do so may result in the application not being considered for funding by the peer review panel. Once the application has been assigned a proposal number, this number should be cited on all future correspondence.**

D. Funding Restrictions

Pursuant to Section 1473 of the National Agriculture Research, Extension, and Teaching Policy Act of 1977, as amended, 7 U.S.C. 3319, **indirect costs or tuition remission are not allowable costs under section 2(c)(1)(B) projects, and no funds will be approved for this purpose.** Further, costs that are a part of an institution's indirect cost pool (e.g., administrative or clerical salaries) may not be reclassified as direct costs for the purpose of making them allowable.

NIFA has determined that grant funds awarded under this authority may not be used for the renovation or refurbishment of research, education, or extension space; the purchase or installation of fixed equipment in such space; or the planning, repair, rehabilitation, acquisition, or construction of buildings or facilities.

E. Other Submission Requirements

You should follow the submission requirements noted in Part IV, Section 1.9 in the document entitled “NIFA Grants.gov Application Guide.”

For information about the **status of a submitted application**, see Part III, Section 6. of the NIFA Grants.gov Application Guide.

PART V—APPLICATION REVIEW REQUIREMENTS

A. General

We evaluate each application in a 2-part process. First, we screen each application to ensure that it meets the administrative requirements as set forth in this RFA. Second, a review panel will technically evaluate applications that meet these requirements.

We select reviewers based upon their training and experience in relevant scientific, extension, or education fields, taking into account the following factors: (a) The level of relevant formal scientific, technical education, or extension experience of the individual, as well as the extent to which an individual is engaged in relevant research, education, or extension activities; (b) the need to include as reviewers experts from various areas of specialization within relevant scientific, education, or extension fields; (c) the need to include as reviewers other experts (e.g., producers, range or forest managers/operators, and consumers) who can assess relevance of the applications to targeted audiences and to program needs; (d) the need to include as reviewers experts from a variety of organizational types (e.g., colleges, universities, industry, state and federal agencies, and private profit and non-profit organizations) and geographic locations; (e) the need to maintain a balanced composition of reviewers with regard to minority and female representation and an equitable age distribution; and (f) the need to include reviewers who can judge the effective usefulness to producers and the general public of each application.

B. Evaluation Criteria

We will use the evaluation criteria below to review applications submitted in response to this RFA:

1. Relevance of the application to the accomplishment of program goals and objectives, as described in Part I, B and Part I, C. (25 points)
2. Adequacy of the proposal response to items listed in the Project Narrative, including a process for managing sub-awards made from NIFA funding. (25 points)
3. Quality and extent of documented stakeholder involvement in application development. (15 points)
4. Capacity of host institution(s) to provide support for the project, including commitment to IPM programs. (15 points)
5. Experience, accomplishments, and time commitments of key project personnel. (10 points)
6. Appropriateness of requested budget. (10 points)

C. Conflicts of Interest and Confidentiality

During the peer evaluation process, we take extreme care to prevent any actual or perceived conflicts of interest that may impact review or evaluation. For the purpose of determining conflicts of interest, we determine the academic and administrative autonomy of an institution by reference to the current Higher Education Directory, published by Higher Education Publications, Inc., 1801 Robert Fulton Drive, Suite 555, Reston, VA, 20191. Phone: (888) 349-7715. Web site: www.hepinc.com.

Names of submitting institutions and individuals, as well as application content and peer evaluations, are kept confidential, except to those involved in the review process, to the extent permitted by law. In addition, the identities of peer reviewers will remain confidential throughout the entire review process, to the extent permitted by law; therefore, the names of the reviewers will not be released to applicants.

D. Organizational Management Information

Specific management information relating to an applicant shall be submitted on a one time basis, with updates on an as needed basis. This requirement is part of the responsibility determination prior to the award of a grant identified under this RFA, if such information has not been provided previously under this or another NIFA program. We will provide you copies of forms recommended for use in fulfilling these requirements as part of the preaward process. Although an applicant may be eligible based on its status as one of these entities, there are factors that may exclude an applicant from receiving federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information).

PART VI—AWARD ADMINISTRATION

A. General

Within the limit of funds available for such purpose, the NIFA awarding official shall make grants to those responsible, eligible applicants whose applications are judged most meritorious under the procedures set forth in this RFA. The date specified by the NIFA awarding official as the effective date of the grant shall be no later than September 30 of the federal fiscal year in which the project is approved for support and funds are appropriated for such purpose, unless otherwise permitted by law. The project need not be initiated on the grant effective date, but as soon thereafter as practical so that project goals may be attained within the funded project period. All funds granted by NIFA under this RFA may be used only for the purpose for which they are granted in accordance with the approved application and budget, regulations, terms and conditions of the award, applicable federal cost principles, USDA assistance regulations (parts 3015 and 3019 of 7 CFR), and NIFA General Awards Administration Provisions at 7 CFR part 3430, subparts A through E.

B. Award Notice

The award document will provide pertinent instructions and information including, at a minimum:

- (1) Legal name and address of performing organization or institution to which the director has issued an award under the terms of this request for applications;
- (2) Title of project;
- (3) Name(s) and institution(s) of PDs chosen to direct and control approved activities;
- (4) Identifying award number assigned by NIFA;
- (5) Project period, specifying the amount of time NIFA intends to support the project without requiring recompetition for funds;
- (6) Total amount of financial assistance approved for the award;
- (7) Legal authority(ies) under which the award is issued;
- (8) Appropriate Catalog of Federal Domestic Assistance (CFDA) number;
- (9) Applicable award terms and conditions (see www.nifa.usda.gov/business/awards/awardterms.html to view NIFA award terms and conditions);

(10) Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the award; and

(11) Other information or provisions deemed necessary by NIFA to carry out its respective awarding activities or to accomplish the purpose of a particular award.

C. Administrative and National Policy Requirements

Several federal statutes and regulations apply to grant applications considered for review and to project grants awarded under this program. These include, but are not limited to:

2 CFR Part 220—Cost Principles for Educational Institutions (OMB Circular A-21).

2 CFR Part 225—Cost Principles for State, Local, and Indian Tribal Governments (OMB Circular A-87).

2 CFR Part 230—Cost Principles for Non-profit Organizations (OMB Circular A-122).

7 CFR Part 1, subpart A—USDA implementation of the Freedom of Information Act.

7 CFR Part 3—USDA implementation of OMB Circular No. A-129 regarding debt collection.

7 CFR Part 15, subpart A—USDA implementation of Title VI of the Civil Rights Act of 1964, as amended.

7 CFR Part 331 and 9 CFR Part 121—USDA implementation of the Agricultural Bioterrorism Protection Act of 2002.

7 CFR Part 3015—USDA Uniform Federal Assistance Regulations, implementing OMB directives (i.e., OMB Circular Nos. A-21, A-87, and A-122, now codified at 2 CFR Parts 220, 225 and 230), and incorporating provisions of 31 U.S.C. 6301-6308 (formerly the Federal Grant and Cooperative Agreement Act of 1977, Pub. L. No. 95-224), as well as general policy requirements applicable to recipients of departmental financial assistance.

7 CFR Part 3016—USDA Implementation of Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments.

7 CFR Part 3017—USDA implementation of Governmentwide Debarment and Suspension (Nonprocurement).

7 CFR Part 3018—USDA implementation of Restrictions on Lobbying. Imposes prohibitions and requirements for disclosure and certification related to lobbying on recipients of federal contracts, grants, cooperative agreements, and loans.

7 CFR Part 3019—USDA implementation of OMB Circular A-110, Uniform Administrative Requirements for Grants and Other Agreements With Institutions of Higher Education, Hospitals, and Other Nonprofit Organizations (2 CFR Part 215).

7 CFR Part 3021—USDA Implementation of Governmentwide Requirements for Drug-Free Workplace (Grants).

7 CFR Part 3022—Research Institutions Conducting USDA-Funded Extramural Research; Research Misconduct.

7 CFR Part 3052—USDA implementation of OMB Circular No. A-133, Audits of States, Local Governments, and Nonprofit Organizations.

7 CFR Part 3407—USDA procedures to implement the National Environmental Policy Act of 1969, as amended.

7 CFR 3430—Competitive and Noncompetitive Non-formula Financial Assistance Programs--General Award Administrative Provisions.

29 U.S.C. 794 (section 504, Rehabilitation Act of 1973) and 7 CFR Part 15b (USDA implementation of statute) —prohibiting discrimination based upon physical or mental handicap in federally-assisted programs.

35 U.S.C. 200 et seq. —Bayh Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in federally-assisted programs (implementing regulations are contained in 37 CFR Part 401).

D. Expected Program Outputs and Reporting Requirements

At least one member from the successful IR-4 headquarters and one member from each successful regional IR-4 center must attend leadership meetings as often as necessary to report on IR-4 activities. Reasonable travel expenses may be claimed as part of the project budget.

Grantees are to submit initial project information and annual and summary reports to NIFA's electronic, Web-based inventory system that facilitates both grantee submissions of project outcomes and public access to information on federally-funded projects. The details of these reporting requirements are included in the award terms and conditions. Details of annual and final technical reporting requirements also are included in the award terms and conditions.

PART VII—AGENCY CONTACTS

Applicants and other interested parties are encouraged to contact:

Programmatic Contact:

Robert Hedberg

National Program Leader
Institute of Food Production and Sustainability
Division of Agricultural Systems

Location: 3405 Waterfront Centre

[Full Address and Directions](#)

Phone: (202) 720-5384

Fax: (202) 401-1782

Email: rhedberg@nifa.usda.gov

Administrative/Business Contact:

Susan Bowman

Branch Chief, Branch I
Office of Grants and Financial Management
Awards Management Division

Location: 2240 Waterfront Centre

[Full Address and Directions](#)

Phone: (202) 401 - 4324

Fax: (202) 401 - 6271

Email: sbowman@nifa.usda.gov

PART VIII—OTHER INFORMATION

A. Access to Review Information

We will send copies of reviews, not including the identity of reviewers, and a summary of the panel comments to the applicant PD after the review process has been completed.

B. Use of Funds; Changes

1. Delegation of Fiscal Responsibility

Unless the terms and conditions of the award state otherwise, awardees may not in whole or in part delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of award funds.

2. Changes in Project Plans

a. The permissible changes by the awardee, PD(s), or other key project personnel in the approved project shall be limited to changes in methodology, techniques, or other similar aspects of the project to expedite achievement of the project's approved goals. If the awardee or the PD(s) is uncertain as to whether a change complies with this provision, the question must be referred to the Authorized Departmental Officer (ADO) for a final determination. The ADO is the signatory of the award document, not the program contact.

b. The awardee must request, and the ADO must approve in writing, all changes in approved goals or objectives prior to effecting such changes. In no event shall requests be approved for changes that are outside the scope of the original approved project.

c. The awardee must request, and the ADO must approve in writing, all changes in approved project leadership or the replacement or reassignment of other key project personnel, prior to effecting such changes.

d. The awardee must request, and the ADO must approve in writing, all transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not federal funds are involved, prior to instituting such transfers, unless prescribed otherwise in the terms and conditions of the award.

e. The project period may be extended without additional financial support, for such additional period(s) necessary to complete or fulfill the purposes of an approved project, but in no case shall the total project period exceed any applicable statutory limit or expiring appropriation limitation. The terms and conditions of award include information about no-cost extensions of the award and when ADO's prior approval is necessary.

f. Changes in Approved Budget: Unless stated otherwise in the terms and conditions of award, changes in an approved budget must be requested by the awardee and approved in writing by the

ADO prior to instituting such changes, if the revision will involve transfers or expenditures of amounts requiring prior approval as set forth in the applicable Federal cost principles, Departmental regulations, or award.

C. Confidential Aspects of Applications and Awards

When an application results in an award, it becomes a part of the record of NIFA transactions, available to the public upon specific request. Information that the Secretary determines to be of a confidential, privileged, or proprietary nature will be held in confidence to the extent permitted by law. Therefore, any information that the applicant wishes to have considered as confidential, privileged, or proprietary should be clearly marked within the application. The original copy of an application that does not result in an award will be retained by the Agency for a period of three years. Other copies will be destroyed. Such an application will be released only with the consent of the applicant or to the extent required by law. An application may be withdrawn at any time prior to the final action thereon.

D. Regulatory Information

For the reasons set forth in the final Rule related Notice to 7 CFR part 3015, subpart V (48 FR 29114, June 24, 1983), this program is excluded from the scope of the Executive Order 12372 which requires intergovernmental consultation with State and local officials. Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the collection of information requirements contained in this Notice have been approved under OMB Document No. 0524-0039.

E. Definitions

Please refer to [7 CFR 3430, Competitive and Noncompetitive Non-formula Financial Assistance Programs – General Award Administrative Provisions](#), for applicable definitions for this NIFA grant program.

For the purpose of this program, the following additional definitions are applicable:

Minor Use: the use of a pesticide on a commercial agricultural crop or site, or an animal where: 1) the total United States acreage for the crop is less than 300,000 acres, as determined by the Secretary of Agriculture; or 2) the use does not provide sufficient economic incentive to support the initial registration or continuing registration of a pesticide for such use. Pesticide Registration (PR) Notice 97-2.

Specialty Crop: fruits and vegetables, tree nuts, dried fruits, and nursery crops (including floriculture). Public Law 108-465 Specialty Crops Competitive Act of 2004.
