PART I—FUNDING OPPORTUNITY DESCRIPTION

A. Legislative Authority and Background

In accordance with the Economy Act of 1932, as amended, (31 U.S.C. 1535), the Department of Defense Education Activity (DoDEA) will utilize the unique resources of the United States Department of Agriculture (USDA) at the National Institute of Food and Agriculture (NIFA). DoDEA has provided NIFA with funds to support the Suicide Prevention Professional Development for DoDEA School Psychologists Competitive Program.

Pursuant to 7 U.S.C. Section 3318(c), the Secretary of Agriculture, acting through the Director of the NIFA, may enter into contracts, grants, or cooperative agreements, for periods not to exceed five years with State agricultural experiment stations, State cooperative extension services, all colleges and universities, other research or educational institutions or organizations, Federal and private agencies and organizations, individuals, and any other contractor or recipient, either foreign or domestic, to further research, extension, or teaching programs in the food and agricultural sciences of the Department of Agriculture.

Within the Department of Defense, Economy Act transactions are governed by Department of Defense Financial Management Regulation, Volume 11A, Chapter 3, Economy Act Orders.

B. Purpose and Priorities

SPPD is aligned with the USDA Strategic Plan found at <http://www.ocfo.usda.gov/usdasp/usdasp.htm>

Strategic Goal 1: Assist Rural Communities to Create Prosperity so They Are Self-sustaining, Repopulating, and Economically Thriving through addressing human and social capital.

SPPD is aligned with the USDA Research, Economics, and Education Action Plan found at http://www.ree.usda.gov/ree/news/USDA_REE_Action_Plan_03-2014.pdf Goal 7: Rural-Urban Interdependence and Prosperity through “supporting information and technology transfer and translational research, ‘transformational extension,’ to inform citizens and enable and support vibrant and resilient communities.” SPPD is aligned with the NIFA’s Strategic Plan found at http://nifa.usda.gov/about/pdfs/strat_plan_2014.pdf, Goal 1: Science through “catalyzing exemplary and relevant research, education and extension programs.” Overall, the project focuses on increasing capacity among school psychologists to address and prevent suicide among youth through proper training of school psychologists, and access to professional development resources and materials.

This work also supports the mission of the DoD-USDA Partnership for Military Families Memorandum of Understanding (MOU) signed in 2010 by NIFA and DoD senior leadership. The goal of the MOU is “...to enhance federal interagency coordination and build capacity for partnerships and collaboration among the agencies and across public and private sectors to sustain programs and services for military Service members and their families.”

Background and Context

The strong need for effective suicide prevention programming in the school setting is apparent when rates of youth suicide and mental distress are considered. Although suicide is the third leading cause of death for youth ages 10-24, research shows training for school psychologists does not provide graduates with adequate preparation either to intervene with a suicidal youth, or to design an effective school suicide prevention program.

DoDEA has a high deployment ratio that has resulted in increased levels of anxiety and uncertainty among many DoDEA families and their dependents. Suicide prevention program implementation used in all DoDEA middle and high schools began in school year 2006, and comprised a curriculum focused on suicide awareness and prevention developed by the Jason Foundation used by DoDEA school psychologists and counselors. The Jason Foundation curriculum provided students, parents, and teachers with tools and resources to help and assist at-risk youth. In addition to the Jason Foundation curriculum, in school year 2007, the Signs of Suicide (SOS) was implemented and offered a developmentally-appropriate program for both DoDEA middle schools and high schools. In school year 2010, SOS Booster Kits for 12th grade were provided to the DoDEA high schools. In 2011, Safe Schools provided DoDEA with a supplement of crisis resources, which was used in tandem with the DoDEA Crisis Management Guide (February 2007). These resources can be currently accessed on the DoDEA website at <http://www.dodea.edu/crisis/index.cfm>.

Current Status of Professional Development for DoDEA School Psychologists Related to Suicide Prevention

DoDEA's current suicide prevention programs include the previously mentioned Jason and SOS program resources; however, the programs are currently outdated. Some DoDEA schools individually purchased the Lifelines program, a comprehensive, whole-school, suicide prevention program. The development of high-quality professional development materials focused on youth suicide prevention would increase the capacity of DoDEA school psychologists to effectively facilitate school efforts to prevent suicide and promote positive mental health.

To address these needs, DoDEA requires professional development and curriculum resources for its 93 school psychologists.

The primary objective for this project is:

- To provide high-quality professional development and curriculum resources for DoDEA school psychologists focused on suicide prevention.

This objective will be accomplished through developing the following products:

- Digital modules that cover the following topics: (1) intervening with a suicidal youth at the elementary, middle school, or high school levels; and (2) establishing a school-based suicide prevention program at the elementary, middle school, and high school levels. The

digital modules will cover approximately five hours of training per grade level. The total information provided will be equivalent to one graduate-level course.

- A comprehensive list of links and web-based resources for the elementary, middle, and high school levels are required. They will include brief summaries related to youth suicide prevention, and youth mental health so that school psychologists can engage in additional research on a particular subject area, if desired.
- An outline for a school-based suicide prevention program at the elementary, middle school, and high school levels. The outlines will include links to open, web-based resources regarding the roles and engagement of administrators, teachers, parents, and students.
- Lesson plans associated with the aforementioned school-based suicide prevention programs. Lesson plans will include links to student activities, assignments, and other materials accessible from open, web-based resources. Three 30-minute lesson plans will be provided for the elementary level. Three 45-minute lesson plans will be provided for both the middle and high school levels—a total of six secondary-level lesson plans.

All products developed under this grant, for the purposes of DoDEA use, should follow Section 508 compliance requirements. Visit <https://www.section508.gov/> for additional information. This will also be included in the Awards Terms and Conditions.

Eligible institutions are also encouraged to partner with the Cooperative Extension Service at a [land-grant university](#).

PART II—AWARD INFORMATION

A. Available Funding

The amount available to support one grant in FY **2016** is approximately **\$144,900**. The funds will be awarded through a **grant**. There is no commitment by USDA to fund any particular application or to make a specific number of awards.

Awards issued as a result of this RFA will have designated the Automated Standard Applications for Payment System (ASAP), operated by the Department of Treasury's Bureau of the Fiscal Service, as the payment system for funds. For more information see <https://www.fms.treas.gov/aboutfms/index.html>.

B. Types of Applications

In FY **2016**, you may only submit a new application to the **SPPD Competitive Program**:

New application. This is a project application that has not been previously submitted to the **SPPD** Program. We will review all new applications competitively using the selection process and evaluation criteria described in Part V—Application Review Requirements.

C. Project Types

For FY 2016, approximately \$144,900 will be available to fund one proposal for one year (see Part I, A. Legislative Authority and Background).

D. Responsible and Ethical Conduct of Research

In accordance with sections 2, 3, and 8 of 2 CFR Part 422, institutions that conduct USDA-funded extramural research must foster an atmosphere conducive to research integrity, bear primary responsibility for prevention and detection of research misconduct, and maintain and effectively communicate and train their staff regarding policies and procedures. In the event an application to NIFA results in an award, the Authorized Representative (AR) assures, through acceptance of the award that the institution will comply with the above requirements. Award recipients shall, upon request, make available to NIFA the policies, procedures, and documentation to support the conduct of the training. See <http://nifa.usda.gov/responsible-and-ethical-conduct-research> for further information.

PART III—ELIGIBILITY INFORMATION

A. Eligible Applicants

Applications may be submitted by State agricultural experiment stations, State cooperative extension services, all colleges and universities, other research or educational institution or organizations, Federal and private agencies and organizations, individuals and any other recipient, either foreign or domestic, to further research, extension, or teaching programs in the food and agriculture, natural resources and human sciences.

Award recipients may subcontract to organizations not eligible to apply provided such organizations are necessary for the conduct of the project. Failure to meet an eligibility criterion by the time of application deadline may result in the application being excluded from consideration or, even though an application may be reviewed, will preclude NIFA from making an award.

B. Cost Sharing or Matching

NIFA does not require matching support for this program and matching resources will not be factored into the review process as evaluation criteria.

PART IV—APPLICATION AND SUBMISSION INFORMATION

A. Electronic Application Package

Only electronic applications may be submitted via Grants.gov to NIFA in response to this RFA. We urge you to submit early to the Grants.gov system. For an overview of the Grants.gov application process see <http://www.grants.gov/web/grants/applicants/apply-for-grants.html>.

New Users of Grants.gov

Prior to preparing an application, we recommend that the Project Director/Principal Investigator (PD/PI) first contact an Authorized Representative (AR, also referred to as Authorized Organizational Representative or AOR) to determine if the organization is prepared to submit electronic applications through Grants.gov. If not (e.g., the institution/organization is new to the electronic grant application process through Grants.gov), then the one-time registration process must be completed PRIOR to submitting an application. It can take as long as 2 weeks to complete the registration process so it is critical to begin as soon as possible. In such situations, the AR should go to **“Register” in the top right corner of the Grants.gov web page (or go to <http://www.grants.gov/web/grants/register.html>) for information on registering the institution/organization with Grants.gov.** Part II.1. of the NIFA Grants.gov Application Guide contains detailed information regarding the registration process. Refer to item 2. below to locate the “NIFA Grants.gov Application Guide”.

Steps to Obtain Application Package Materials

To receive application materials:

1. You must download and install a version of Adobe Reader compatible with Grants.gov to access, complete, and submit applications. For basic system requirements and download instructions, see <http://www.grants.gov/web/grants/applicants/adobe-software-compatibility.html>. Grants.gov has a test package that will help you determine whether your current version of Adobe Reader is compatible.
2. To obtain the application package from Grants.gov, go to <http://www.grants.gov/web/grants/applicants/download-application-package.html> and enter the funding opportunity number

Funding Opportunity Number: USDA-NIFA-EXCA-006002

in the appropriate box and click “Search.” From the search result, click “Select Package” to access the application package. A Grant Application Package is tied to a particular funding opportunity. You may submit an application ONLY to the particular funding opportunity to which the Grant Application Package is associated.

If you require assistance to access the application package (e.g., downloading or navigating Adobe forms) **or submitting the application**, refer to resources available on

the Grants.gov website <http://www.grants.gov/web/grants/applicants/applicant-tools-and-tips.html>. Grants.gov assistance is also available at:

B. Content and Form of Application Submission

You should prepare electronic applications following Parts V and VI of the NIFA Grants.gov Application Guide. This guide is part of the corresponding application package (see Section A. of this Part). The following is **additional information** needed to prepare an application in response to this RFA. **If there is discrepancy between the two documents, the information contained in this RFA is overriding.**

Note the attachment requirements (e.g., PDF) in Part III section 3. of the guide. ANY PROPOSALS THAT ARE NON-COMPLIANT WITH THE REQUIREMENTS (e.g., content format, PDF file format, file name restrictions, and no password protected files) WILL BE AT RISK OF BEING EXCLUDED FROM NIFA REVIEW. Grants.gov does not check for NIFA required attachments or that attachments are in PDF format; see Part III section 6.1 of the guide for how to check the manifest of submitted files. Partial applications will be excluded from NIFA review. We will accept subsequent submissions of an application until close of business on the closing date in the RFA (see Part V, 2.1 of the NIFA Grants.gov Application Guide for further information).

For any questions related to the preparation of an application, review the NIFA Grants.gov Application Guide and the applicable RFA. If assistance is still needed for preparing application forms content, contact:

C. Submission Dates and Times

Prior to electronic submission of the application via Grants.gov, it is strongly recommended that an administrative review be conducted to ensure that an application complies with all application preparation instructions. An application checklist is included in Part VII of the NIFA Grants.gov Application Guide to assist with this review.

While the checklist should be used to check the application for completeness, the application should be checked additionally for the following required item(s). This is not an exhaustive list of required items; it only serves to highlight required items that are sometimes overlooked by applicants:

- Project Summary
- Project Action Plan
- Bibliography
- Current and Pending Support forms
- Conflict of Interest forms

Instructions for submitting an application are included in Part IV, Section 1.9 of the NIFA Grants.gov Application Guide.

Applications must be received by Grants.gov by **5:00 p.m. Eastern Time on September 1, 2016**. Applications received after this deadline will normally not be considered for funding.

If you have trouble submitting an application to Grants.gov, you should FIRST contact the Grants.gov Help Desk to resolve any problems. Keep a record of any such correspondence. See Part IV. A. for Grants.gov contact information.

We send email correspondence to the AR regarding the status of submitted applications. Therefore, applicants are strongly encouraged to provide accurate e-mail addresses, where designated, on the SF-424 R&R Application for Federal Assistance.

If the AR has not received correspondence **from NIFA** regarding a submitted application within 14 days of the established deadline, contact the Agency Contact identified in Part VII of the applicable RFA and request the proposal number assigned to the application. **Failure to do so may result in the application not being considered for funding by the peer review panel. Once the application has been assigned a proposal number, this number should be cited on all future correspondence.**

D. Funding Restrictions

Indirect Cost: Fully negotiated rate. The applicant should use the current negotiated indirect cost rate established (i.e., approved) by its cognizant Federal agency. If the applicant does not have a current negotiated rate, the applicant should request a rate from the Federal agency from which the applicant receives the most funding. See Part V section 7.9 of the NIFA Grants.gov Application Guide for further indirect cost information.

Statutory language or agency policy limits the maximum potential funding period (including any awards transferred from another institution or organization) to 5 years in duration. The funding period will commence on the effective date cited in the award instrument. Any such limitation also applies to subcontracts made under awards subject to a funding period limitation.

The PD may incur pre-award costs within the 90-day period immediately preceding the effective date of the award providing: the approval of pre-award spending is made and documented in accordance with the awardee's normal procedures prior to the incurrence of the cost(s); the advanced funding is necessary for the effective and economical conduct of the project; and the costs are otherwise allowable. Pre-award expenditures are made at the awardee's risk. AR authority to approve pre-award costs does not impose an obligation on NIFA: (1) in the absence of appropriations; (2) if an award is subsequently not made; or (3) if an award is made for a lesser amount than the awardee expected.

Pre-award costs incurred outside the 90-day period immediately preceding the effective date of the award must receive written approval from the Authorized Departmental Official (ADO). Please verify with the Administrative/Business Contact listed in this RFA before any pre-award expenditures. Any expenditures made before then are at your own risk.

E. Other Submission Requirements

You should follow the submission requirements noted in Part IV, section 1.9 in the document entitled "NIFA Grants.gov Application Guide."

For information about the **status of a submitted application**, see Part III., section 6. of the NIFA Grants.gov Application Guide.

PART V—APPLICATION REVIEW REQUIREMENTS

A. General

We evaluate each application in a 2-part process. First, we screen each application to ensure that it meets the administrative requirements as set forth in this RFA. Second, a technical review panel will evaluate applications that meet the administrative requirements.

We select reviewers based upon their training and experience in relevant scientific, extension, or education fields, taking into account the following factors: (a) The level of relevant formal scientific, technical education, or extension experience of the individual, as well as the extent to which an individual is engaged in relevant research, education, or extension activities; (b) the need to include as reviewers experts from various areas of specialization within relevant scientific, education, or extension fields; (c) the need to include as reviewers other experts (e.g., educators, administrators) who can assess relevance of the applications to targeted audiences and to program needs; (d) the need to include as reviewers experts from a variety of organizational types (e.g., colleges, universities, industry, state and federal agencies, and private profit and non-profit organizations) and geographic locations; (e) the need to maintain a balanced composition of reviewers with regard to minority and female representation and an equitable age distribution; and (f) the need to include reviewers who can judge the effective usefulness of each application to producers and the general public.

When each peer review panel has completed its deliberations, the responsible program staff of the **SPPD** team will recommend that the project: (a) be approved for support from currently available funds; or (b) be declined due to insufficient funds or unfavorable review.

The **SPPD** team reserves the right to negotiate with the PD/PI and/or with the submitting organization or institution regarding project revisions (e.g., reductions in the scope of work, funding level, period, or method of support) prior to recommending any project for funding.

B. Evaluation Criteria

We will use the evaluation criteria below to review applications submitted in response to this RFA:

1. Potential for Developing Suicide Prevention Resources and Professional Development Materials for DoDEA School Psychologists (35 percent)

This criterion is used to assess the likelihood that the project will succeed in: (1) providing the expertise necessary to develop high-quality, effective, professional resources and materials for DoDEA school psychologists, outlined in Part 1, Section B; (2) providing the overall management of this project including partnerships and management of project staff; (3) meeting established project objectives and timelines; and (4) demonstrating successful past experience with related projects, particularly those involving suicide prevention, curriculum development, professional development and school psychology training.

2. Proposed Approach and Program Coordination (35 percent)

This criterion is used to assess the soundness and sustainability of the proposed approach including statement of need, scope of the project, objectives, design, methods, key personnel, timeline, partnerships, expected products and results, and communication plan. Experience working with pre-K-12 school system leadership, educators, school psychologists and with the DoD, the Services, or DoDEA will be considered. Meaningful partnerships with Cooperative Extension will be considered.

3. Evaluation (20 percent)

This criterion is used to assess the adequacy of the proposed project evaluation design and its capacity to meet the project objectives.

4. Budget and Budget Narrative (10 percent)

This criterion is used to assess the extent to which the total budget adequately supports the project and is cost effective based on budget outline provided. Elements considered include: the necessity and reasonableness of costs to carry out project activities and achieve project objective and the adequacy of time committed to the project by key project personnel.

C. Conflicts of Interest and Confidentiality

During the peer evaluation process, we take extreme care to prevent any actual or perceived conflicts of interest that may impact review or evaluation. See http://www.nifa.usda.gov/business/competitive_peer_review.html for further information about conflicts of interest and confidentiality as related to the peer review process.

D. Organizational Management Information

Specific management information relating to an applicant shall be submitted on a one time basis, with updates on an as needed basis. This requirement is part of the responsibility determination prior to the award of a grant identified under this RFA, if such information has not been provided previously under this or another NIFA program. We will provide you copies of forms recommended for use in fulfilling these requirements as part of the preaward process. Although an applicant may be eligible based on its status as one of these entities, there are factors that may exclude an applicant from receiving federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information).

E. Application Disposition

An application may be withdrawn at any time before a final funding decision is made regarding the application. Each application that is not selected for funding, including those that are withdrawn, will be retained by **SPPD** for a period of three years.

PART VI—AWARD ADMINISTRATION

A. General

Within the limit of funds available for such purpose, the NIFA awarding official shall make a grant to the responsible, eligible applicant whose application is judged most meritorious under the procedures set forth in this RFA. The project need not be initiated on the grant effective date, but as soon thereafter as practical so that project goals may be attained within the funded project period. All funds granted by NIFA under this RFA may be used only for the purpose for which they are granted in accordance with the approved application and budget, regulations, terms and conditions of the award, applicable federal cost principles, USDA assistance regulations, and NIFA General Awards Administration Provisions at 7 CFR part 3430, subparts A through E.

(11) Other information or provisions deemed necessary by NIFA to carry out its respective awarding activities or to accomplish the purpose of a particular award.

C. Administrative and National Policy Requirements

Please refer to Part II, C. for more information.

D. Expected Program Outputs and Reporting Requirements

Grantees are to use REEport, NIFA's electronic, web-based inventory system to submit an initial project initiation which documents expected products and outcomes of the project. Additionally, annual progress report documenting realized project outcomes must be submitted to the electronic system. The web-based system facilitates an electronic workflow between grantees and NIFA for project accomplishments to be easily searchable and allows for public access to information on Federally-funded projects. The details of these reporting requirements, including those specific to the annual and final technical reports, are included in the award terms and conditions.

The output and reporting requirements are included in the award terms and conditions (see <http://www.nifa.usda.gov/business/awards/awardterms.html> for information about NIFA award terms). If there are any program or award-specific award terms, those, if any, will be identified in the award.

The awardee will also be asked to provide regular updates to the SPPD team and the designated DoDEA leadership. These discussions and meetings regarding progress will be a part of the Award Terms and Conditions.

Data Use: Use of data provided to NIFA awardees pursuant to this grant shall comply with the provisions of this paragraph. NIFA awardees shall be free to publish in professional, refereed journals information or data developed or collected (except confidential data or information including PHI or PII) resulting from the activities under this grant. Awardees will be required to submit a copy of any such publication to USDA NIFA sixty (60) days prior to publication for review and approval by NIFA and DoDEA to ensure that any confidentiality necessary related to the grant is maintained and that NIFA and the DoDEA have been accurately represented. All educational and technical assistance materials developed by the awardee under an agreement

with NIFA shall be owned by the awardee. NIFA and the DoDEA will have a non-exclusive, royalty-free, non-transferable, irrevocable license to reproduce, prepare derivative work and distribute copies of the products so long as such products are used for non-commercial educational or government purposes.

Any work produced under a NIFA award is subject to 2 C.F.R. Part 200.315 related to intangible property.
