Veterinarian Shortage Situation Nomination Form

To be submitted under the authority of the chief State or Insular Area Animal Health Official

Veterinary Medicine Loan Repayment Program (VMLRP)

This form must be used for Nomination of Veterinarian Shortage Situations to the Veterinary Medicine Loan Repayment Program (VMLRP), Authorized Under the National Veterinary Medical Service Act (NVMSA)

Note: Please submit one separate nomination form for each shortage situation. See the State Animal Health Official (SAHO) section of the VMLRP web site (www.nifa.usda.gov/vmlrp) for the number of nominations permitted for your state or insular area.

Location of Veterinary Shortage Area for this Nomination

Location of Veterinary Shortage: Storm Lake, IA
(e.g., County, State/Insular Area; must be a logistically feasible veterinary practice service area)

Approximate Center of Shortage Area (or Location of Position if Type III): Des Moines District Office Federal Building 210 Walnut Street
 Des Moines, IA 50309
(e.g., Address or Cross Street, Town/City, and Zip Code)

Overall Priority of Shortage: Critical Priority

Type of Veterinary Practice Area/Discipline/Specialty (select one) :

Type III: Public Practice (awardee obligation at least 49% FTE or 19 hr/week)

For Type I or II Private Practice:

- | | |
|---|--|
| <p>Must cover(check at least one)</p> <p><input type="checkbox"/> Beef Cattle</p> <p><input type="checkbox"/> Dairy Cattle</p> <p><input type="checkbox"/> Swine</p> <p><input type="checkbox"/> Poultry</p> <p><input type="checkbox"/> Small Ruminant</p> <p><input type="checkbox"/> Other: _____</p> | <p>May cover</p> <p><input type="checkbox"/> Beef Cattle</p> <p><input type="checkbox"/> Dairy Cattle</p> <p><input type="checkbox"/> Swine</p> <p><input type="checkbox"/> Poultry</p> <p><input type="checkbox"/> Small Ruminant</p> <p><input type="checkbox"/> Other: _____</p> |
|---|--|

For Type III Public Practice:

Employer: USDA/Food Safety and Inspection Service Position Title: Supervisory Public Health Veterinarian

Please select **one or more** specialty/disciplinary areas:

- Food Safety
- Public Health
- Epidemiology
- Other: _____

(Optional) If the nominator wishes to specify a service time for this shortage situation that is higher than the minimum required for the shortage type checked above, please specify the percent time in the box below (based on a 40-hour work week). Leave the box blank if the service time for this shortage situation is for the minimum percent time of the shortage type indicated.

100 %

Please describe the **importance and objectives** of a veterinarian filling this shortage situation as well as being located in the community, area, state/insular area, or position requested above (limit your response to 1500 characters).

The Food Safety and Inspection Service (FSIS) is the public health agency in the U.S. Department of Agriculture responsible for ensuring that the nation's commercial supply of meat, poultry, and egg products is safe, wholesome, and correctly labeled and packaged. This position has been particularly hard to fill and retain due to the remoteness of the position, the geographic dispersion of work, and the entry salary (GS-12) that offers no further promotion potential. These conditions adversely impact retention and the corresponding higher than normal turnover rate further impedes work-life balance and flexibilities of remaining employees which can lead to burn out and additional turnover. In addition, this shortage location is fully reflective of the demographic data as outlined in the workforce analysis data report prepared by the Talent Management Advisory Council (TMAC).

Please describe the **activities** of a veterinarian meeting this shortage situation in the community, area, state/insular area, or position requested above (limit your response to 1500 characters or less).

Planning, organizing, coordinating and adapting the full range of meat and poultry inspection operations in slaughter and/or processing establishments; Ensuring establishments meet requirements of the Pathogen Reduction and Hazard Analysis and Critical Control Point (HACCP) regulations; Overseeing other consumer protection, non-food safety concerns such as proper labeling and packaging; Serving as team leader who works with and supervises other public health professionals to ensure establishments under our jurisdiction comply with sanitation standards and properly implement systems that control hazards from entering the food supply; Enforcing Federal meat and poultry inspection procedures prior to slaughter and throughout the entire establishment, including humane handling, ante-mortem inspection, post-mortem inspection, processing operations, veterinary dispositions, and transportation and distribution of meat, poultry, and egg products to markets and retail stores.

Please describe any past efforts to recruit and retain a veterinarian in the shortage situation identified above (limit your response to 750 characters or less).

Through an aggressive recruitment and outreach strategy, FSIS has made available the following recruitment incentives: 25% Base-Pay Recruitment Incentive for 4 years; Creditable Service for Annual Leave Accrual; Direct Hire Authority; Referral Bonus Award; Schedule A Authority to Hire VMO's on Intermittent Schedules; \$20,000 Student Loan Repayment; Travel and Transportation to First Post of Duty; Higher than minimum starting pay under the pay for performance public health human Resources System (PHHRS); Relationship with Colleges of Veterinary Medicine and Memorandum of Understanding (MOUs) with Minority Service Institutions and Affinity Groups

Please describe the risk of this veterinarian position not being secured or retained. Include the risk(s) to the production of a safe and wholesome food supply and to animal, human, and environmental health not only in the community but in the region, state/insular area, nation, and/or international community (limit your response to 2000 characters or less).

Ensuring the safety, security and defense of the nation's food supply is one of the most important responsibilities within the Federal Government. Without the veterinarians employed by FSIS, we would be unable to safeguard public health throughout the nation and beyond. Most FSIS veterinarians work in meat and poultry establishments that are under Federal inspection. A shortage or absence of FSIS veterinarians impedes the ability to ensure the establishments are complying with the regulatory mandates and enforce federal meat and poultry inspection procedures.

The PHV position, primarily at establishments that slaughter meat and poultry, is one of the hardest to fill and retain for a variety of reasons, including:

1. Difficult working environment – The conditions on the kill floor are unpleasant and the work is arduous. The physical requirements are stringent given the repetitive motions and heavy lifting that is often required.
2. Greater demands on employees – Increasing scientific demands are placed on the workforce at an increasingly rapid pace. The FSIS food safety mission continues to grow in importance.
3. Unique skills in short supply – Veterinarians, critical to the defense against the possibility of a global pandemic are in great demand and have many occupational choices from which to choose.
4. Disparity of salaries – Veterinarians in the private sector who work in private practice or animal clinics can demand greater salaries than those who work in the Federal government.
5. Demographics – Over half of the workforce in mission-critical occupations will be eligible to retire within the next five years.

SAHO nominator must check both boxes below in order for NIFA to consider this nomination for official designation

- By checking this box, I affirm that this form represents a nomination and is subject to NIFA review and approval.
- By checking this box, I affirm that it is my professional opinion that this is a bona fide food supply or public health-related veterinary shortage situation. I affirm due diligence has been invested to identify this area as a shortage situation of at least moderate priority (severity).

Authorized State or Insular Area Animal Health Official or designee:

Name: Dr. Rosemary Turner

Title: Deputy District Manager

Organization: USDA/FSIS/Des Moines District
